Sir:

In accordance with MPEP section 1122 (III), Applicant hereby rescinds the *potentially* improper nonpublication request for the above-referenced instant application. This nonpublication request is *potentially* improper because prior to the filing of the nonpublication request, Applicant filed a PCT application which contained material related to (but not claimed in) the instant application. Note that all of the material in this related PCT application was previously published in U.S. Patent Application No. 10/676,571. Because all of the material in the related PCT application was published, Applicant does not believe the mere presence of this published material in the instant application (wherein the published material was not claimed in the instant application) makes the nonpublication request for the instant application improper. However, in an abundance of caution, Applicant hereby rescinds this nonpublication request.

Respectfully submitted,

A handwritten signature in black ink, appearing to be "A. Richard Park".
